

```
package day_2;

import java.util.Scanner;

//Write a program to identify if the character is an alphabet or not.
public class Problem {

    public static void main(String[] args) {

        Scanner sc=new Scanner(System.in);
        char ch=sc.next().charAt(0);
        sc.close();
        if((ch<='z'&&ch>='a')||(ch<='Z'&&ch>='A')){
            System.out.println("Alphabet");
        }
        else
        {
            System.out.println("Not an alphabet");
        }
    }

}
```
